1. Installing the Adapter Brackets

1-1 For Flat Back Screens

1-2 For Recessed Back Screens or to Access A/V Inputs

Note: Choose the appropriate screws, washers and spacers (if necessary) according to the type of screen.

- Position the adapter brackets as close as possible to the center of the display.
- Screw the adapter brackets onto the display.

⚠ Tighten all screws but do not over tighten.

2. Attaching the Dual-Universal Plate to the Pipe

Thread and tighten the dual-universal plate onto the pipe(not included).

Insert and tighten one set screw to secure it.

3. Hooking the Displays onto the Universal Plate

Tighten the bottom bolts to secure the adapter brackets to the universal plates.

Install all antiskid blocks as close to the adapter brackets as possible.

Tighten all screws on the antiskid blocks using a proper screwdriver to prevent the display from moving.

4. Adjustment

Adjust the displays to the desired angle.

Maintenance

- Check that the bracket is secure and safe to use at regular intervals (at least every three months).
- Please contact your distributor if you have any questions.
